The Al Gore Sustainable Technology Venture Competition for MBA and other graduate students in India focuses on bringing new sustainable technologies to market through entrepreneurship.

Winners of The Al Gore Sustainable Technology Venture Competition will receive:

- Cash awards (Rs. 1, 00, 000 and Rs. 70, 000, respectively, for the first two places, towards roundtrip airfare travel to Carnegie Mellon University, Pittsburgh, USA), and winners will be chosen to compete in the Sustainable Technology Track of the McGinnis Venture Competition, Carnegie Mellon University, Pittsburgh, USA for additional prizes.

For details see: www.mcginnisventurecompetition.com

- The opportunity to interact directly with top-tier venture capitalists and entrepreneurs.
- Valuable intellectual property services and the opportunity to raise capital.

APPLICATION DEADLINE: JANUARY 12, 2008

Schools may send up to two representative teams to the competition.

For further information and guidelines, please visit

www.sustainable-future.org/IIFT www.iift.edu

Approximately eight qualifying teams will be selected to make their presentations and compete in the finals at the IIFT, New Delhi, on February 11, 2008. The panel of judges will be composed of eminent IIFT faculty, venture capitalists, government officials, industrialists and leaders.
