The Al Gore Sustainable Technology Venture Competition for MBA, Engineering, and Science & Technology undergraduate (final year), and graduate students focuses on bringing new sustainable and clean technologies to market through innovation and entrepreneurship.

Winners of The Al Gore Sustainable Technology Venture Competition will receive:

- Cash awards
- The opportunity to interact directly with top-tier venture capitalists and entrepreneurs.
- Valuable intellectual property services and the opportunity to raise capital.

Schools may send up to two representative teams to the competition.

For further information and guidelines, please visit:

www.cicerotransnational.com/agstvc.html

Approximately eight qualifying teams will be selected to make their presentations and compete at the finals in the host/partner institution. The panel of judges will be composed of eminent faculty, venture capitalists and industrialists.
